

Lincoln Sculpture Facts

- A life-size bronze of Abraham Lincoln and his horse has been commissioned for President Lincoln's Cottage through the generosity of Robert H. Smith
- The sculpture highlights Lincoln's daily commute from the Cottage to the White House in the summer and fall of 1862, 63 and 64
- The sculpture was designed and produced by StudioEIS of Brooklyn, NY
- Extensive archival research was undertaken to ensure a historically accurate depiction – including examination and measurement of Lincoln's clothing
- A team of sculptors worked on the project:
 - o Sculpture design and oversight – Ivan Schwartz, Founder, Director, StudioEIS
 - o Head Sculptor and principal sculptor of Lincoln: Jiwoong Cheh
 - o Portrait sculptor, Stuart Williamson
 - o Final Scale models: Jiwoong Cheh. Asst. to Jiwoong Cheh: Chie Shimizu
 - o At least 3-4 other sculptors and assistants worked on the sculpture
 - o Production manager StudioEIS: BJ Ervick (daily oversight, foundry oversight)
- Approximate finished weight: 2500 pounds
- Dimensions: Height including horse - 84 inches. Length of horse and figure - 88 inches
- Production time frame from research through installation: 1 year
- Foundry: Polich/Tallix in Rock Tavern NY (4 months in production)
- Installation date: November 10, 2009
- The sculpture will be installed on the north side of President Lincoln's Cottage, in the historic carriage oval
- Dedication date: February 2009
